To obtain a position of responsibilities that utilizes my skills and experience as a team player and keen to work in an environment which is delivery focused and where I can enrich my knowledge.

---

## Experience

### AdroitMinds Software Labs

• Software Developer • Trivandrum, Kerala

03/2023 – Present

#### **Project: Micrologic Car Wash**

**Role:** Development, Unit Testing, Deployment

**Environment:** Asp.net C#(MVC 4) , SQL Server 2018 , JavaScript, jQuery, Ajax, CSS, HTML , Web API, React JS, Git(Code Commit)

**Description:** At Micrologic, main focus was on the challenges faced by companies in the Car Wash and Quick Lube industries.

The project offered a full line of car wash management systems for all types of operations; from **Express Exterior, Flex Service, Full Service, Self Service and In-bay Automatics**, it can provide a complete car wash system solution tailored to meet customer's needs.

### Xminds Info Tech

• Software Developer • Trivandrum, Kerala

03/2020 – 03/2023

#### **\* Project: Accident Investigation Management system (AIMS)**

**Role:** Development, Unit Testing, Customer Communication , Deployment

**Environment:** Asp.net C#(MVC 5) , SQL Server 2014 , Zenko (Cloud Service - AWS Service) , JavaScript, jQuery, Ajax, CSS, HTML

**Description:** The Accident Investigation Management system (AIMS) is an innovative system that optimizes the air accident investigation processes and procedures. The AIMS consolidates all investigation data into one database system. The application saves time for investigators to record reports and conduct real-time analysis related to air accidents and incidents.

The application follows several modules and processes. All the processes are executed in a smart workflow ensuring quality results. It helps automate all the document centric processes by improving the productivity and efficiency of the life cycle of all the air accident investigations.

#### **\* Project: Datazoom**

**Role:** Development, Unit Testing

**Environment:** React JS (Functional Component)

**Details:** Datazoom is a video data platform that gathers data from endpoints and sends it through connectors to analytics platforms for visualization.

## Aibi Technology

•Software Developer • Trivandrum, Kerala
