ABOUT ME

My expertise lies in developing UI and web applications using React, Angular, and Java technologies. Over the course of my career, I have honed my skills in building responsive and user-friendly front-end solutions, ensuring a seamless user experience. Additionally, I have also gained valuable experience working with .NET Core MVC. I am passionate about staying up-to-date with the latest trends and best practices in front-end development. I am committed to delivering high-quality code and solutions to meet project requirements.

EXPERIENCE

Full Stack Developer at Infoniz technologies, Kochi

May 2023 - present

- Handled backend development for various projects and provided code support in Java
- Worked on a Fleet Management System using React TypeScript.
- Experience with ServiceNow (often referred to as 'SNOW') instances, and I have achieved certifications related to ServiceNow.

Software Engineer at Delogue PLM, Trivandrum

March 2022 — April 2023

- Worked on client-side implementation for the last 1 year by creating client-side logic and different components.
- Experienced in using Redux for global state management.
- Also worked on some react re-write stories (jQuery to react)
- Possess a strong foundation in Frontend development with CSS3, HTML5, Javascript and React.
- Leverage RESTful APIs from .NET developers to implement robust and user friendly react applications for PLM

EDUCATION

B.TECH - Computer Science and Engineering (KTU)

Sree Buddha college of Engineering, Pattoor

2017 — 2021
