📍 Alappuzha, Kerala, India

📄 PROFILE

With 1 year and 9 months of experience as an intermediate-level software engineer, I have honed my skills in the complete product development lifecycle using the ASP.NET framework. I possess a strong ability to detect and resolve bugs, optimize execution flow, and effectively utilize MS SQL databases and web service architectures to enhance project functionality.

👛 PROFESSIONAL EXPERIENCE

04/2023 – present
Kochi

Remitap Fintech Solutions , Kochi
Jr Software Engineer

1) Wallet transaction management system project [**ASP.NET**]

- **UI Design and Development:** Designed and implemented **HTML** pages using **Razor** pages, ensuring a user-friendly and responsive interface. Leveraged **JavaScript** , **jQuery** and **AJAX** to enhance user interactions and optimize page performance.
- **MVC Solution Development:** Developed a robust multi-user **MVC** (Model-View-Controller) solution for the system. Utilized **C#** programming language to ensure efficient and maintainable codebase.
- **Integration of Web Services:** Seamlessly integrated **RESTful** web services to facilitate smooth communication between different system components.
- **Web Application Security:** Ensured web application security against vulnerabilities like **XSS**, **CSRF**

2) International Remittance System Project [**ASP.NET**]

- **UI Design and Development:** Designed and implemented **HTML** pages using **Razor** pages, ensuring a user-friendly and responsive interface. Leveraged **JavaScript** and **jQuery** to enhance user interactions and optimize page performance.
- **MVC Solution Development:** Developed a robust multi-user **MVC** (Model-View-Controller) solution for the system. Utilized **C#** programming language to ensure efficient and maintainable codebase.
- **Integration of Web Services:** Seamlessly integrated **RESTful web services** to facilitate smooth communication between different system components.

07/2022 – 04/2023

Took temporary break from career to address a medical issue and focus on recovery.

11/2021 – 07/2022
Kochi, India

Finahub Technology Solutions, Kochi
Jr Software Engineer

- Designed and executed brand new customer registration and verification system using **HTML/CSS** , **javascript** and **java** to efficiently create and verify new users.

- Implemented significant features in a customer management system using **RestFul webservices** , **java** and **javascript**.
- Rebuilt existing Document execution tool using **Vue js** for UI and **RestFul webservices** , **java**.
- Handled **MySQL** database.

EDUCATION

Palakkad, India	B.Tech in Computer Science and Engineering NSS College Of Engineering Palakkad August 2017 - March 2020
Pandalam, India	Diploma in Computer Engineering NSS Polytechnic College Pandalam June 2013 - March 2016
Kattanam, India	Higher Secondary Education in Computer Science Pope Pius XII HSS , Kattanam June 2011 - March 2013

PRIMARY SKILLS

Programming Languages

C#
JavaScript
Core Java

Frameworks and Others

.NET Framework (ASP.NET)
HTML/CSS
Spring boot

API

RESTful APIs and Webservices

Database

MySQL
MS SQL

Source Code Management

Git and Github

IDEs

Visual Studio
Visual Studio Code
Intellij IDEA
Eclipse

Build and Dependency Management

Maven
Nuget

SOFT SKILLS

- Proficient at independently acquiring knowledge across various technical domains through self-directed learning.
- Capable of swiftly analyzing intricate technical scenarios.

INTERESTS

- Software Development, Backend Development, System level programming, Network controlling Software Development.
