## MERN STACK DEVELOPER

Self-taught and experienced Full Stack Developer with one year of industrial experience, possessing a deep understanding of JavaScript, HTML, CSS, Node.js, Express.js, MongoDB, React.js, and more. Strong technical background in software development and passionate about building ecommerce websites. I have successfully completed two sample projects: a Netflix clone and an OLX website, both developed using React.js. Additionally, I have worked on a mini project using the MERN stack with the Redux library and JWT token for enhanced functionality.
