Soft Skills

- Change Agent
- Collaborator
- Communicator
- Analytical
- Team Player
- Quick Learner

Technical Skills

- **Web Technologies:** HTML, CSS
- **Framework/Open Sources:** Angular, .NET Core, .NET Framework
- **Version Control:** Git, GitLab, GitHub
- **Programming Languages:** JavaScript, TypeScript, C#
- **Project Management:** AZURE Boards
- **Database:** MySQL, MSSQL
- **Operating System:** Windows, Linux
- **IDE & Tools:** VS Code, Visual Studio, FileZilla, MS Office

Core Competencies

- Software Development Lifecycle Management
- Requirement Gathering & Analysis
- Web Development
- Change Management
- Database Management
- Optimization
- Cross-functional Coordination
- Team Leadership & Development
- Performance Monitoring & Optimization

Work Experience

Sep'2021–Till Now: [Speridian Technologies, Kochi, India](#)

Growth Path: [Junior Developer \(Sep'2021-Aug'2023\)](#) → [Full Stack Developer \(Aug'2023-Till Now\)](#)

Key Result Areas:

- Incorporated industry best practices and design patterns into Angular development to boost performance and code sustainability.
- Employed top practices and code enhancements in .NET development to improve application scalability and dependability.
- Carried out code refactoring and performance enhancements in Angular and .NET development, resulting in a 20% increase in application responsiveness.
- Integrated third-party libraries and APIs to elevate application functionality and user experience.
- Used Git for version control to support collaborative development and code management.
- Skilled in applying security principles and secure coding practices, ensuring 100% compliance with coding standards by actively engaging in code reviews.
- Demonstrated proficiency in troubleshooting and resolving complex issues in Angular and .NET applications for a smooth functionality and user experience.
- Improved data integrity by adeptly crafting database queries and implementing data validation procedures.
- Demonstrated effectiveness in agile development environments by consistently adapting to evolving requirements and priorities for successful project completion.

Education

- **Master of Computer Applications,** APJ Abdul Kalam Technological University, Amal Jyothi College of Engineering, Kottayam (2019 – 2021)
- **Bachelor of Computer Applications,** Mahatma Gandhi University, Mar Augusthinose College Ramapuram (2016- 2019)

Personal Details

- **Date of Birth:** 15-02-1999
- **Languages Known:** English & Malayalam

Projects

MMWSS (HRMS)

- It is a comprehensive software solution developed for managing human resource management for external organizations.
- It efficiently handles activities related to human resources management within the organization, encompassing modules such as employee and payroll.

o360 - Internal Application

- O360 is a Human Resource Management System developed for internal purposes related to resource management.
- It is designed and structured in a way to include all modules related to human resource management within our organization.
- This system helps us manage modules like LMS, PMS, Expenses, timesheet, and leave, etc. All these modules have features that enable us to provide detailed descriptions of each activity or specific employee-related queries that need immediate solutions.
