EXPERIENCE

Superhire, Kochi — Junior Software Developer

FEBRUARY 2023 - PRESENT

- Designed and developed web pages using a tech stack that included Vue.js for the front end, Node.js with Hapi.js for server-side logic, and PostgreSQL for database management.
- Elevated website engagement by 30% through the implementation of mobile-responsive design techniques.
- Leveraged Tailwind CSS and Javascript to artfully fashion three distinctive and responsive landing pages, enhancing the company's digital presence.
- Collaborated with the team through weekly stand-up meetings, sprint planning sessions, and meticulous tracking of user stories and bugs in BitBucket.

Keyvalue Software Systems, Kochi — Associate Software Engineer Trainee

AUGUST 2022 - JANUARY 2023

- Collaborated closely with senior front-end developers, contributing to the creation of aesthetically pleasing user interfaces utilizing Tailwind CSS.
- Executed feature development from conceptualization to deployment, employing React to ensure seamless integration of functionalities in accordance with project requirements.
- Engaged in a supportive role by shadowing senior developers during code revamp initiatives. Conducted thorough testing of React components using Jest, ensuring the reliability and quality of the codebase.

PROJECTS
