Experience

Labglo Technologies - Senior Frontend Developer   *Aug 2022-present*
- **Led a 6-person development team**, providing guidance and mentorship to drive project success and skill development
- Utilized various optimization techniques in React to enhance application performance. Successfully optimized API calls, resulting in a **30% reduction** in page load times
- Collaborated with the project manager and senior backend engineer to **architect** and deliver successful project
- Researched and **architected** a platform similar to **Zoho People** and **Zoho Payroll**,
- Documented major features, **POCs**, and key projects for clear understanding and easy maintenance. Provided valuable resources for team collaboration, QA testing, and future development
- Continues integration, deployment, improving code,code review, e2e testing

Freelance Web Developer - MERN stack developer   *Jan 2022-Aug 2022*
- Collaborated closely with clients to understand project requirements and delivered custom applications meeting their unique needs
- Developed reusable React.JS components, improving code manageability and reusability
- Successfully built **end-to-end applications** from **scratch** and also contributed to projects under **NDA**
- Worked on a full-stack application using **React, Node.js, Express, MongoDB**, and **AWS**

Admore Digital -MERN stack developer   *Mar 2021-Dec 2021*
- Build website from scratch using **html,css,javscript,react,node,firebase**
- I was responsible for **translating UI/UX designs into real code**, which improved our user interface
- Worked there for a project and it is delivered successfully

Project

StyleHr- Lead Frontend Developer

(React.js,Context Api,Hasura GraphQL,AntD,Webpack)
- Led a **6-member** frontend team, implementing **Agile methodology** for efficient code management, deployment, code reviews, and task assignments, ensuring streamlined project execution
- **Collaborated with financial experts** to integrate crucial functionalities into our application, conducting in-depth research, documenting logic, and ensuring seamless implementation
- Implemented a dynamic user management system with role-based permissions, offering customized access levels like **self, self + reportee, reportees, and all,** to accommodate a diverse user base
- Optimized application performance with API call optimization and various React methods, **achieving a 30% faster** page loads

DIH - Full stack Developer

(Nextjs,Redux,Node,MongoDB,Express,NetworkPaymentGateway,Framer Motion,)
- Created a website entirely from scratch, covering both frontend and backend development
- Build in a **micro service architecture**
- Integrated Network Payment Gateway

Project4MC - Frontend stack Developer

(React,Context Api,Ag Grid,)
- Integrated the application with external services such as **ShipStation, Shopify**, and **Voyage One**
- Used **AG-Grid** for efficient data management, incorporating features like **infinite scrolling**, sorting, and filtering.
- Implemented **refresh token** functionality using **Axios interceptors** to maintain user sessions and enhance application security

Skills

- HTML5,CSS,JAVASCRIPT,BOOTSTRAP,MATERIAL UI
- REACT,REDUX,CONTEXT API,GRAPHQL,WEBPACK,NEXTJS
- NODEJS,MONGODB,EXPRESS,RESTful APIs
- MICRO SERVICES,AGILE METHODOLODY
- GIT,VS CODE,AWS S3,CLOUDINARY
- RESPONSIVE/MOBILE DESIGN,

Education

BSc Computer Science -2019-2022
Calicut university
